

## THE TECHNOLOGY

SteadyPower provides a cost-effective, single-installation way to protect the entire home from electrical surges and spikes while conditioning incoming electricity to optimize power factor and reduce static-causing line noise.

## THE BENEFITS

- Metal Oxide Varistor (MOV) surge and spike protection
- Residential power factor correction up to .97 or .98
- Electrical line noise reduction
- Circuit breaker installation
- 10 Year Limited Product Warranty
- \$25,000 reimbursement to repair or replace damaged equipment\*

\* See full warranty for details and restrictions [vollara.com/manuals](http://vollara.com/manuals)

## FEATURES

- Protects your home from surges and spikes from incoming electricity that can damage electrical systems
- Reduces electrical line noise that causes static to occur
- Helps motorized home appliances like air conditioners, refrigerators, washers + dryers to work more efficiently when not operating at full capacity
- No maintenance required

## SPECIFICATIONS

<b>Product Information</b>	US40845 Model: ECP240R
----------------------------	------------------------

<b>Power Line Voltage</b>	120 AC, 60 Hz, 2.7 A
---------------------------	----------------------

<b>Phase Configuration</b>	Single
----------------------------	--------

<b>Frequency</b>	60 Hz
------------------	-------

<b>Power Distribution</b>	1050 Joules (2ms current wave)
---------------------------	--------------------------------

<b>Metal Oxide Varistors (MOV)</b>	15
------------------------------------	----

<b>Peak Pulse</b>	45°F – 100°F (7°C – 38°C)
-------------------	---------------------------

<b>Coverage</b>	40,000 Amps (8/20 microsecond current wave)
-----------------	---

<b>Max . Clamping (V)</b>	140/280 (@200Am 8/20 microsecond current wave)
---------------------------	--

<b>Total Capacitance</b>	30 uF
--------------------------	-------

<b>Operating Temperature</b>	-40 to +70 degrees C
------------------------------	----------------------

<b>Line Wires</b>	12 AWG
-------------------	--------

<b>Circuit Breaker Required</b>	20 Amp
---------------------------------	--------

<b>Weight &amp; Dimensions</b>	6 lbs. (2.7 kg)
	4.86" W x 9.75" H x 2.88" D (12.34 cm x 24.77 cm x 7.31 cm)

<b>Warranty</b>	Limited 10 year, \$25,000 warranty
-----------------	------------------------------------
